

### *The Kaiser Series*

It has taken several years for us to develop the Kaiser Series. The steel has been carefully selected from Germany, assembled together with a beautiful handle made from a premium material. Thanks to the durable lacquer coat (Durocoat®) the blade has an incredibly sharp edge. Through great craftsmanship we have found a perfect weight and balance that will make the knife fit any chef. The sharpness combined with the premium materials makes this into a long-lasting knife in our homes and also in the professional kitchen.
